

# Kristian Fulkerson

## Frontend Web Developer | Full Stack Software Engineer

Riverside, CA | 951-227-3742 | [kristianf451@gmail.com](mailto:kristianf451@gmail.com) | GitHub: [krisf451](#) | LinkedIn: [kristianfulkerson](#)

### TECHNICAL SKILLS

---

**Frontend:** Javascript, Typescript, React, Vue3, Hooks, Redux, Jest, Cypress, Yup, SASS/LESS, TailwindCSS, Material UI

**Backend:** Node.js, Express, SQL, PostgreSQL, MongoDB, MongoDB WebSDK, Mongoose, Git, GitHub, Deployment (Vercel, Heroku, Netlify, Cloudflare), Cloudflare R2 Storage

**Additional Skills:** Agile Project Management, Algorithms, Architecture, Data Structures, Slack, Zoom, Figma, Github Projects, SDLC

### PROJECTS

---

#### Elegant Music App - Frontend Engineer

[GitHub](#) | [Website](#)

React | Redux Toolkit | TailwindCSS | Shazam API | GeoTracking API

- Allowed users to brow
- Used React.js and AntDesign to implement UI features on the front end of the project
- Made a decision to use redux state management for smoother data transfer throughout the application
- Interacted with a backend REST API to query data for implementation on the frontend

#### Codeheroes - Frontend Engineer

[GitHub](#) | [Website](#)

React | Redux | Node.js | AntDesign | PostgreSQL

- For a non-profit organization, worked on a remote cross-functional team to build features within a legacy codebase
- Designed mock-ups for user interfaces in Figma using the AntDesign UI kit
- Used React.js and AntDesign to implement UI features on the front end of the project
- Made a decision to use redux state management for smoother data transfer throughout the application
- Interacted with a backend REST API to query data for implementation on the frontend

#### Car Marketplace - Fullstack Engineer

[Website](#)

React | Redux Toolkit | TailwindCSS | RTK Query | Node | Express | MongoDB | Mongoose | Stripe

- For a non-profit organization, worked on a remote cross-functional team to build features within a legacy codebase
- Designed mock-ups for user interfaces in Figma using the AntDesign UI kit
- Used React.js and AntDesign to implement UI features on the front end of the project
- Made a decision to use redux state management for smoother data transfer throughout the application
- Interacted with a backend REST API to query data for implementation on the frontend

#### Memories Social Media - Fullstack Engineer

[GitHub](#) | [Website](#)

MongoDB - Express - React - Node | JSON Web Tokens | Redux | Material UI | Google Cloud

- Built a social media application utilizing the MERN stack where registered users can share their favorite memories
- Developed a fully fledged authentication system using JSON web tokens and google authentication
- Utilized HTTP requests to implement full create, read, update, and delete (CRUD) functionality for user memories
- Real-time comment functionality as well as filtering memories by title or tag

### EXPERIENCE

---

#### Phoenix Capital Group, Irvine, CA - Fullstack Software Engineer

June 2022 - Present

- Worked on an investment portal project from inception to production that has generated millions of dollars in revenue.
- Built internal tools including an administrative dashboard that allowed for increased collaboration and improved efficiency from all departments when working with investments.

#### Amazon, San Bernardino, CA - Warehouse Associate

Jan 2019 - Aug 2021

- Earned commendation by facilitating over 4000 items, the highest daily in a single 10-hour shift
- More than doubled productivity during tenure through process efficiency improvements

#### Trademark Plastics, Riverside, CA - Quality Control

Oct 2016 - Dec 2018

- Enhanced client/manufacture relationships by providing high-end quality assurance on medical-grade plastic parts
- Managed 20+ client relationships in order to provide insight related to products, equipment, and materials

## EDUCATION

---

**BloomTech (Lambda School),** *Graduate, Full-Time, Full Stack Web Development*

Aug 2021 - Mar 2022

**University of California, Riverside,** *Computer Science*

Dec 2018 - Jan 2020

**Riverside Community College,** *Computer Science*

Jan 2017 - Nov 2018
